

DELIVER & ANALYZE

Create Seamless Content Experiences While Gaining Valuable Data Insights

Xyleme's **Syndicate™** is an enterprise-class platform that empowers organizations to organize, deliver and analyze content — all from a single source of truth.

Learn more at www.xyleme.com

Centralize & Streamline Content Management

Organize, tag, version and search content in one place to ensure accuracy, consistency, and ease of maintenance, regardless of format (SCORM, media, HTML5, PDF, Word, PowerPoint, etc.).

Collect Actionable Content Metrics

Analytics dashboards powered by an xAPI-compliant Learning Record Store (LRS) provide an accurate and objective picture of content engagement and performance.

Ensure Content Accuracy & Consistency

Identify exactly which version of each piece of content was accessed, when, and by whom, with comprehensive reporting and tracking to simplify maintenance and support regulatory audit compliance.

Integrate Content Across Enterprise Platforms

Place your content within applications and platforms already in use by your organization, so you can embed content into the flow of work.

“Modular content is the root of our adaptability for rapid and agile distribution — it’s huge for our business — and centralized management of branding for our outputs has been a game changer for us.”

Are You Ready to Manage Your Content Across Experience Touch Points?

Whether you're training customers, employees, vendors, or any other audience, empower them to connect with your content anywhere, in any format at any time. **With Xyleme, there is a better way to manage and deliver content.**

- Centralize content in a single cloud-based repository
- Deliver content with or without an LMS
- Support cloud-based SCORM delivery
- Create custom-branded content portals
- Facilitate granular content searches
- Ensure enterprise-level security
- Expand content channel distribution & experience options
- Capture robust learner & content performance analytics
- Track detailed version histories & usage to facilitate compliance & simplify regulatory audits
